

Travis Rosiek
Public Sector CTO
Rubrik

Travis Rosiek is a highly accomplished cyber security executive with more than 20 years in the industry. He has built and grown cybersecurity companies and led large cybersecurity programs within the U.S. Department of Defense (DoD). His experience spans driving innovation as a cybersecurity leader for global organizations and CISOs to corporate executive building products and services. His impact has helped lead to successful IPOs (FireEye) and acquisitions (BluVector by Comcast). As a Cyber Leader in the U.S. DoD, he has been awarded the Annual Individual Award for Defending the DoD's Networks.

Travis currently serves as the Public Sector CTO at Rubrik helping organizations become more cyber and data resilient. Prior to Rubrik, Travis held several leadership roles including the Chief Technology and Strategy Officer at BluVector, CTO at Tychon, Federal CTO at FireEye, a Principal at Intel Security/McAfee and Leader at the Defense Information Systems Agency (DISA). He earned a Certificate from GWU in Executive Leadership and graduated from West Virginia University with Honors while earning multiple Engineering Degrees. He also was one of the first of ten students from across the nation to be awarded a scholarship from the DoD/NSA's in cybersecurity. His pioneering mindset has helped him better secure our nation and commercial critical infrastructure.

Additionally, Travis is an invited speaker, author (blogs, journals, books) and has also served on the NSTAC, ICIT Fellow, and multiple advisory boards.
